Kusingenieurswese in perspektief

Dr. André van Tonder

Dr van Tonder is 'n siviele ingenieur wat hom sedert 1980 in die spesialisveld van kusingenieurswese bevind. Sy eerste 18 jaar het hy by die WNNR hidrouliese laboratorium op Stellenbosch deurgebring waarna hy as privaat konsultant by Entech Konsultante, en na 'n samesmelting, by die internasionale WSP groep werksaam was. André en Sandra het klompie jare gelede op Stilbaai kom aftree.

André sal 'n oorsig gee oor wat kusingenieurswese – effektief ingenieurswese in die see – behels en die interessante veld illustreer aan die hand van sommige van die projekte waarby hy oor sy meer as 40 jaar in die bedryf betrokke by was. Die praatjie is in Afrikaans met die PowerPoint skyfies in Engels.

Coastal Engineering in perspective

Dr. André van Tonder

Dr van Tonder is a civil engineer who found himself in this specialist field of coastal engineering since 1980. André and Sandra retired to Stilbaai a few years ago.

André will give an overview of coastal engineering – effectively engineering in the ocean - and illustrate this interesting field at the hand of some of the projects in which he was involved in his more than 40 years in the industry. The talk is in Afrikaans with PowerPoint slides in English.
