MAANDELIKSE PRAATJIE

Maandag 25 September 2023 @ 10:00
Die Waenhuis, Jagersbosch

DIE ONTSTAAN EN ONTWIKKELING VAN BERGPASSE IN DIE SUID-KAAP

Niel van Wyk

Die Suid-Kaap is afgesny van die res van Afrika deur twee bergreekse, maar vandag is daar bergpasse wat ons oor hierdie berge neem. Terwyl u deur die pas ry en die wonderlike uitsigte geniet, het u ooit gewonder hoe hierdie passe tot stand gekom het, hoekom is die pas op hierdie spesifieke plek en nie deur 'n kloof verder oos of verder wes nie?

'n Totaal van 20 bergpasse het die berge van die Suid-Kaap gekruis, tussen Montague in die weste en Plettenbergbaai in die ooste, met die Swartberge as die noordelike grens. Vandag is 15 van hierdie passe nog in gebruik as openbare paaie

Die praatjie is nie 'n reisverhaal wat die passe beskryf nie, maar 'n bespreking van hoe hulle ontstaan het en hoe geskiedkundige gebeure in die Kaap hul ontwikkeling beïnvloed het om deel te vorm van ons hedendaagse vervoer roetes.

Die vroeë ontwikkeling van die passe word in algemene terme bespreek, en dan die invloede van

MONTHLY MEETING

Monday 25 September 2023 @ 10:00
Die Waenhuis, Jagersbosch

THE ORIGIN AND DEVELOPMENT OF MOUNTAIN PASSES IN THE SOUTHERN CAPE

Niel van Wyk

The Southern Cape is cut off from the rest of Africa by two mountain ranges, but today several mountain passes takes us across these mountains. While driving through the pass enjoying magnificent scenery, have you ever wondered how these passes came into being, why is the pass at this specific site and not through a kloof further east or further west?

A total of 20 mountain passes crosses the mountains of the southern Cape, the area between Montague in the west and Plettenberg Bay in the east, with the Swartberg as the northern boundary. Today 15 of these are still in use as public roads.

The talk is not a travelogue describing these passes, but a discussion of how they originated and how historical events at the Cape influenced their development to form part of our modern-day transport routes.

die Hollandse Oos-Indiese Maatskappy (VOC) en die plaaslike Khoekhoen stamme op hul gebruik en ontwikkeling. Oor die jare het twee tipe passe ontwikkel, dié wat dierepaadjies gebruik het, en passe wat gebou is. Die praatjie eindig met 'n lys van die 20 passe.

Niel van Wyk is in Riversdal gebore waar hy matrikuleer. Hy het by Rhodes Universiteit studeer waar hy grade in Dierkunde, Insektekunde en Viskunde toegeken is; daarna werksaam by Kaap Provinsiale Natuurbewaring vir byna 30 jaar. In die tyd het hy ook 'n Honneurs graad in Publieke Administrasie by Universiteit Stellenbosch se Bestuurskool verwerf. Na 30 jaar verblyf in Kaapstad, trek hy na Stilbaai, sy ou tuisomgewing, in 2014 om 'n meer rustige lewe te geniet.

Alhoewel Niel 'n omgewingswetenskaplike is, het hy 'n lewenslange belangstelling in die geskiedenis van die Hessequa omgewing. Die Van Wyk familie het 'n prominente rol gespeel in die vroeë ontwikkeling van Riversdal en Stilbaai, en Niel het 'n familieregister van die Riversdal tak van die Van Wyks opgestel. Hy het ook die geskiedenis van 'n plaas wat in sy familie was vir ongeveer 130 jaar nagevors, dit is Plattekloof, die oudste plaas in die Riversdal distrik.

Plattekloof plaas is geleë by die ingang na 'n historiese belangrik bergpas oor die Langeberg, die Plattekloof-pas; in sy navorsing van die geskiedenis van die plaas, vind hy dat dit nouliks verbind is met die fassinerende geskiedenis van hierdie pas. Dit het gelei tot navorsing oor die oorsprong van bergpasse en hul gebruik en ontwikkeling in die Langeberge, Outenquas en Swartberge.

Niel se PowerPoint is in Engels en hy praat Afrikaans en Engels.

Ons weet dit is 'n openbare vakansie dag, maar dit het in die verlede nie bywoning affekteer nie - elke jaar val ons September praatjie op hierdie dag.

Hierdie praatjie is 'n MOET vir diegene wat op die Historiese Bergpasse uitstappie gaan.

The early origins of the passes are discussed in general terms, then the impacts of the Dutch East India Company (VOC) and the local Khoekhoen tribes on their use and development. Over the years two types of passes developed, those using animal trails and those that were constructed. The talk ends with a listing of the 20 mountain passes.

Niel van Wyk was born in Riversdale where he matriculated. He attended Rhodes Univiersity obtaining degrees in Zoology, Entomology and Ichthyology; subsequently working for Cape Provincial Nature Conservation for nearly 30 years. During this time he also obtained an Honours degree in Public Administration at the University of Stellenbosch Business School. After living in Cape Town for 30 years, he moved to Stilbaai, his old home territory, in 2014 to enjoy a more relaxing lifestyle.

Although Niel is an environmental scientist, he has a lifelong interest in the history of the Hessequa area. The Van Wyk family played a prominent role in the early development of Riversdale and Stilbaai, and Niel compiled a family register of the Riversdale branch of the Van Wyks. He has also researched the history of a farm that was in his family for about 130 years, this is Plattekloof, the oldest farm in the Riversdale district.

Plattekloof farm lies at the entrance to an historically important mountain pass across the Langeberg, the Plattekloof Pass; in his research on the history of the farm, he found this closely intertwined with the fascinating history of this pass. This lead to research into the origin of mountain passes and their use and development in the Langeberg, Outeniqua and Swartberg mountains.

Niel's PowerPoint is in English, his talk will be in Afrikaans and English.

We know this is a public holiday, but this has not affected attendance in the past - every year our September talk is on this day.

This talk is a MUST for those going on the Historic Mountain Passes Outing.

WAT IS U3A?

Die Universiteit van die Derde Era is 'n internasionale beweging met doelwitte om die lewenskwaliteit van ouer mense, veral afgetredenes te verbeter, en bevorder die behoud van intellektuele kapasiteit deur middel van stimulerende leer- en onderrig-programme en die sosiale kontakte wat daarmee gepaard gaan. Dit is gemik op mense in die derde 'era' van hul lewe, en word algemeen na verwys as U3A (van die Franse en Engelse akroniem).

Daar is geen enkele aanvaarde model vir U3A nie. Die oorspronklike konsep in Frankryk as 'n buitemuurse aktiwiteit van 'n universiteit, is in Brittanje noemenswaardig verander waar dit erken is dat

WHAT IS U3A?

The University of the Third Age is an international movement whose aims are to improve the quality of life of people of mature age, especially retirees, and encourages the maintenance of intellectual capacity through stimulating programmes of learning and teaching and the social contacts derived therefrom. It is aimed at people in the third 'age' of life, and is commonly referred to as U3A (the French and English acronym).

There is no single universally accepted model for U3A. Its original conception in France as an extramural university activity was significantly modified in the Britain where it was recognized that most people of

meeste mense van aftree ouderdom iets het om by te dra en die beklemtoning is op deelname, sonder formele skakeling met tradisonele universiteite.

Baie Engels-sprekende lande het hierdie deelnemende model gevolg, terwyl kontinentale Europa meestal die Franse model volg.

U3A lidmaatskap is nie verbonde aan 'n spesifieke ouderdom nie, maar weerspieël 'n tydperk van aftrede en rus in 'n mens se lewe; die eerste era is die tyd van groei en leer, die tweede era is van voltydse werk en verantwoordelikheid as ouers. Enige persoon in hul derde era kan aansluit, en dit sluit in mense wat deeltyds werk. Daar is geen minimum ouderdom vir lede nie.

Ons moet beklemtoon dat U3A nie 'n enkele organisasie is met 'n sentrale beheer en takke nie – dit is 'n internasionale beweging en elke U3A is 'n onafhanklike eenheid wat voldoen aan die doelwitte en vereistes van die beweging.

Internasionaal

U3A is in 1973 in Toulouse, Frankryk, begin deur Prof Pierre Vella van die Fakulteit van Sosiale Wetenskappe as die "Universités du Troisième Âge" (Akroniem: U3A). In Frankryk is elke U3A groep meestal verbonde aan 'n plaaslike universiteit. Hierdie akademiese model word in sommige ander lande, veral in kontinentale Europa, gevolg.

In die vroeë 1980's het die beweging Brittanje bereik, en daar is die formaat drasties verander om die vaardighede en kennis van afgetrede mense te benut. Hierdie model word ook in Australië, Nieu Zeeland, Suid Afrika, en baie ander lande gebruik.

Die Britse model van groeps opvoeding erken dat afgetrede persone lewenslange ondervinding het, en gesamentlik 'n geweldige bron van kennis het wat hulle met ander kan deel.

Suid-Afrika

Die eerste U3A in Suid-Afrika was U3A Kaapstad wat in 2000 gestig is - vandag is daar meer as 40 U3A's in Suid-Afrika. Daar is huidiglik geen akkurate ledetal syfer vir Suid-Afrika nie, maar dit word geskat op tussen 12 000 en 15 000.

Stilbaai

U3A Stilbaai is in Mei 2015 deur Stefan Pretorius begin, hy het na Stilbaai verhuis van Kaapstad waar hy betrokke was by U3A Valsbaai en U3A Kaapstad.

'n Tussentydse bestuurskomitee is saamgestel met die doel om te bepaal of U3A Stilbaai lewensvatbaar sal wees. Dit was toe verwag dat die ledetal ongeveer 40 sal wees. Met die eerste vergadering het ongeveer 20 mense aangesluit, en dit het gegroei tot meer as 130 'n jaar later.

retirement age have something to contribute and the emphasis has been on sharing, without formal links to traditional universities.

Many English-speaking countries have followed this sharing model, whereas continental European countries have mostly followed the French model.

U3A membership is not related to a specific age but to the period of retirement and rest in one's life (the third age); the first age is growing up and learning, and the second age is full-time employment and parental responsibility. Anybody in their third age can join U3A and this includes people who are working part-time. There is no lower age for membership.

It must be emphasized that U3A is not an organisation with central control and branches – it is an international movememt and each U3A is an independent entity conforming to the objectives and requirements of the movement.

International

U3A was started in France by Prof. Pierre Vella at the Faculty of Social Sciences in Toulouse, France, in 1973 as the "Universités du Troisième Âge" or "University of the Third Age" (Acronym: U3A). In France, each U3A group is mostly associated with a local university. This academic model is used in several other countries, in particular in continental Europe.

By the early 1980's, the movement reached Britain, where its nature was radically changed to utilize the experience and knowledge of retired persons. This model is also used in Australia, New Zealand, South Africa, and many other countries.

In the British model of peer learning, it is acknowledged that retired people have a lifetime of experience and, collectively, a vast amount of knowledge that they can share with others.

South Africa

The first U3A in South Africa was U3A Cape Town established in 2000 - today there are more than 40 U3A's in South Africa. There is no accurate figure for the current total membership in South Africa, but it is estimated to be between 12 000 and 15 000.

Stilbaai

In May 2015 Stefan Pretorius, who had moved to Stilbaai from Cape Town where he had been involved with U3A False Bay and U3A Cape Town, started U3A Stilbaai.

An interim management committee was set up with the objective to determine whether U3A Stilbaai would be a viable organisation. It was expected that membership would be about 40. At the first meeting about 20 people joined up, and this grew to more than 130 members a year later.

U3A Stilbaai is dus duidelik lewensvatbaar, en 'n grondwet is opgestel voor die Stigtingsvergadering op 25 Julie 2016. By die Stigtingsvergaderig is die grondwet aanvaar, en 'n bestuurskomitee is verkies.

Huidiglik is daar 386 lede in U3A Stilbaai.

Obviously U3A Stilbaai was a viable organisation, and a constitution was drawn up before the Inaugural Meeting on 25 July 2016. At the Inaugural Meeting the constitution was accepted, and a management committee was elected.

Currently U3A Stilbaai has 386 members.
